The Milken Institute's mission is to explore and explain the dynamics of world economic growth. Our goal is to provide understanding and insight into the effects of economic, political, technological and regulatory changes on the world economy and its societies as a basis for better public policy.

The Nehemiah Corporation of America is a not-for-profit community development corporation specializing in homeownership, affordable housing and community development.

TABLE OF CONTENTS

Executive Summary	1
Introduction	7
Down payment assistance program beneficiaries and the communities in which they live benefit in three distinct, yet interconnected ways—economically, socially and culturally.	
SECTION I: The Impact of the Nehemiah DAP on County Property	
Tax Revenues	11
Methodology.....	13
Promoting and expanding homeownership among low- to moderate-income households has tremendous implications for public finance.	
Tax Base and Tax Revenue Consequences of the Nehemiah DAP Recipients’ Share in the Housing Market	17
Expanding homeownership in low- to middle-income neighborhoods has positive tax consequences for the counties in which they live.	
County Property Tax Revenue Growth in the Atlanta MSA	23
Cumulative property tax revenues paid by Nehemiah Corporation DAP taxpayers in the Atlanta MSA for the fiscal years 1998-1999 to 2004-2005 will be more than \$139 million at the end of the fiscal year 2004-2005.	
County Property Tax Revenue Growth in the Baltimore PMSA	29
Cumulative property tax revenues for the fiscal years 1998-1999 to 2004-2005 paid by Nehemiah Corporation DAP taxpayers in the Baltimore PMSA will be greater than \$10 million at the end of the fiscal year 2004-2005.	
County Property Tax Revenue Growth in the Columbus MSA.....	32
Cumulative property tax revenues for the fiscal years 1998-1999 to 2004-2005 paid by Nehemiah Corporation DAP taxpayers in the Columbus MSA will exceed \$101 million at the end of the fiscal year 2004-2005.	
County Property Tax Revenue Growth in the Philadelphia PMSA.....	34
Cumulative property tax revenues for the fiscal years 1998-1999 to 2004-2005 paid by Nehemiah Corporation DAP taxpayers in the Philadelphia PMSA will exceed \$6.58 million at the end of the fiscal year 2004-2005.	

County Property Tax Revenue Growth in the Sacramento PMSA	38
Cumulative property tax revenues for the fiscal years 1997-1998 to 2004-2005 paid by Nehemiah Corporation DAP taxpayers in the Sacramento PMSA will be more than \$24 million at the end of the fiscal year 2004-2005.	
County Property Tax Revenue Growth in the St. Louis MSA	40
The total cumulative property tax revenues for fiscal years 1998-1999 through 2004-2005 paid by Nehemiah DAP taxpayers in the St. Louis MSA will exceed \$5 million at the end of the fiscal year 2004-2005.	
Concluding Points	44
The tax analysis performed for each county highlights the fact that low- to moderate-income homeowners are essential to raising local government revenues.	
 SECTION II: Assessing Evidence of Home Appreciation of Individual Nehemiah DAP Recipients.....	
SECTION II: Assessing Evidence of Home Appreciation of Individual Nehemiah DAP Recipients.....	45
Nehemiah DAP recipients whose property appreciated over the past years accumulated wealth in the form of home equity.	
Measuring Statistical Evidence.....	47
Homeownership as a vehicle for asset accumulation across all regions is heavily dependent on the timing of purchase, especially when interest rates are low.	
Home Price Appreciation in the Atlanta MSA.....	50
Nehemiah DAP beneficiaries in the Atlanta MSA experienced strong house price appreciation.	
 Growth and Equity Gains Among Minority DAP Households in Atlanta MSA	56
Home Price Appreciation in the Baltimore PMSA.....	58
Nehemiah DAP recipients living in the Baltimore PMSA realized increased wealth over the past five years.	
 Growth and Equity Gains Among Minority DAP Households in Baltimore PMSA	60
Home Price Appreciation in the Columbus MSA	61
Homeownership has been a vehicle for asset appreciation for Nehemiah DAP recipients who purchased in the Columbus MSA.	
 Growth and Equity Gains Among Minority DAP Households in Columbus MSA.....	63

Home Price Appreciation in the Philadelphia PMSA	64
Nehemiah DAP recipients in the Philadelphia PMSA accumulated home equity.	
Growth and Equity Gains Among Minority DAP Households in Philadelphia PMSA	67
Home Price Appreciation in the Sacramento PMSA	68
Homeownership for low- to moderate-income households in the Sacramento PMSA is an important strategy for accumulating wealth.	
Growth and Equity Gains Among Minority DAP Households in Sacramento PMSA	70
Home Price Appreciation in the St. Louis MSA	71
St. Charles, St. Louis City, Franklin and Jefferson Counties in the state of Missouri and Madison, St. Clair and Monroe Counties in the state of Illinois experienced remarkable home price increases.	
Growth and Equity Gains Among Minority DAP Households in St. Louis MSA	74
Concluding Points	76
Household wealth in the 57 observed counties has grown almost uninterrupted since 1997. The Nehemiah Corporation boosted homeownership and wealth creation for low- to moderate-income households as well as among minority households.	

SECTION III: Regional Economic Performance and Housing

Characteristics: Statistical Analysis..... **79**

The archetypal Nehemiah household has a median income of \$40,764, and purchased a home with a median value of \$116,750.

Atlanta MSA: Employment, Wages and Housing

88

Over the past decade, nearly 60 percent of all jobs created paid 30 percent less per year than the per capita income of \$33,000 for the Atlanta MSA as a whole.

Baltimore PMSA: Employment, Wages and Housing

93

Net job gains since 1992 comprise a large share, approximately 65 percent, of low- to moderate-paying jobs at levels well below per capita income (\$34,039 in December 2001) in the Baltimore PMSA.

Columbus MSA: Employment, Wages and Housing.....

97

The increasing gap between home prices and wages in the Columbus MSA mandates the implementation of efforts such as Nehemiah's DAP in underserved communities.

Philadelphia PMSA: Employment, Wages and Housing	99
The increasing gap between home prices and wage growth evidences the need for the Nehemiah DAP in underserved communities in Philadelphia PMSA.	
Sacramento PMSA: Employment, Wages and Housing	110
Sacramento PMSA's housing market became a strong seller's market that sent prices soaring to such an extent that the median household income and the savings of a typical Nehemiah DAP applicant were insufficient to qualify to purchase a home.	
St. Louis MSA: Employment, Wages and Housing	114
The single-family housing market is priced out of reach for the typical Nehemiah DAP recipient in the St. Louis MSA who on average purchased a home with a median value of \$79,500 in the last decade.	
Concluding Points	118
The increasing "affordability gap" provides evidence that homeownership remains out of reach for low- to moderate-income households.	
SECTION IV: Empirical Analysis	119
This empirical analysis substantiates that homeownership confers positive socioeconomic and financial benefits upon homeowners and the communities in which they live.	
Survey Methods and Questions	121
The interview process consisted predominantly of survey questions aimed at in-depth understanding of the perceptions and insights of the Nehemiah DAP recipients.	
Summary of Key Interview Findings	124
All respondents to the survey acknowledged that they could not have purchased their homes at the time that they did had it not been for the assistance provided by the Nehemiah DAP.	
Group A: Enthusiastic about Nehemiah DAP	124
Group A felt that owning their own home was one of the most important decisions in their life.	
Group B: Moderate attitude toward DAP	139
Members of Group B knew that homeownership would eventually be attained.	
Concluding Points	145
The empirical analysis evidenced socioeconomic and financial benefits of homeownership.	

SECTION V: Conclusion and Key Findings	149
Nehemiah DAP recipients and the communities in which they live, benefit in three distinct, yet interconnected ways—economically, socially and culturally.
